

# SURFACE PREPARATION

## Section 1. Chemical product and company identifications

Common name: Surface Preparation Product code: 60427 Chemical family: Cleaner, surface preparation CAS: Mixture Synonyms: Not applicable

#### Supplier / Manufacturer:

#### Finitec Hardwood Products Inc.

150, Leon-Vachon Saint-Lambert-de-Lauzon (Quebec) Canada GOS 2W0 Phone: (418) 889-9910 Fax: (418) 889-9915 CANUTEC: (613) 996-6666

In case of emergency:

Or contact your local poison control center.

## Section 2. Hazards identifications

Physical state: Liquid

Warning: The product can cause mild eye and skin irritation, especially in case of sensitivity. If large quantities are inhaled, may affect respiratory system.

Routes of entry: Eyes, skin, inhalation, ingestion.

#### Potential acute effects

- Eyes: The product can cause eye irritation.
- Skin: The product may cause irritation.
- Inhalation: The product can cause irritation to the respiratory tract.
- Ingestion: If ingested, product may cause irritation to the gastrointestinal tract. Harmful if swallowed in large quantities.

Potential chronic effects: See Toxicological Information (section 11).

## Section 3. Composition and information on ingredients

| Name                           | CAS      | Concentration % |
|--------------------------------|----------|-----------------|
| Diethylene glycol methyl ether | 111-77-3 | 1 to 2          |

\*\*Product contains components in concentrations lower than disclosure requirements. \*\*

# Section 4. First aid measures

**Eye contact:** Flush eyes with running water for at least 15 minutes, keeping eyelids open immediately. Take care not to contaminate unaffected areas. Consult a doctor immediately.

Skin contact: Wash the affected area with soap and water and rinse immediately with plenty of running water. Get medical attention if irritation symptoms arise.

**Inhalation:** If symptoms of respiratory irritation arise following inhalation of the product, move the victim to fresh air. If symptoms persist or worsen, contact emergency services immediately.

Ingestion: In cases of ingestion of large amounts of product, DO NOT induce vomiting. Consult a doctor immediately.

**Note:** For any situation where the victim should consult a doctor or emergency services should go to the scene of incident to an intervention or medical transportation, make sure you give a copy of this MSDS with the victim if his health permits, an accompanying person or emergency services so that it is readily available for emergency physicians and / or physicians.

## Section 5. Fire fighting measures

Flammability of the product: Not flammable Lower limit of flammability: Not available Upper limit of flammability: Not available Flammability temperature Not available Flash point: >100°C Products of combustion: Carbon dioxide (CO<sub>2</sub>), Carbon monoxide (CO), Nitrogen oxide, Halogenated compounds. Fire hazards in presence of various substances: Data not available Fire fighting media and instructions: Extinguishing media such as water fog, carbon dioxide or alcohol resistant foam. Do not use water spray as it will spread fire.

## Section 6. Accidental release measures

Personal precautions: Wear appropriate clothing and protective equipment when cleaning liquid chemicals. Environmental precautions: Prevent infiltration into drains, sewers and water courses. Methods for cleaning up: Absorb spill with inert absorbent and non-combustible materials, such as universal absorbents or vermiculite. Transfer absorbed substance in a suitable container for disposal in accordance with federal, provincial and local laws.

## Section 7. Handling and storage

Handling: Wear all personal protective equipment according to the task. Properly apply the professional and personal hygiene procedures such as washing hands before eating. Prohibit eating, drinking and smoking in contaminated areas. Use safety procedures to avoid accidents.

Storage: It is recommended to store the product at room temperature. Keep out of reach of children.

# Section 8. Exposure Controls, Personal Protections

Engineering controls: Ensure adequate ventilation and good air output to keep contaminant concentrations below the permissible exposure limits. Eyes: Wear safety glasses with side shields. Respiratory: During routine operations, respiratory protection is not required. If exposure limits are exceeded, wear appropriate respiratory protection. Hands: Wear chemical resistant gloves. Skin/body: According to task. Other: Eyewash and emergency shower must be available on site.

## Section 9. Physical and chemical properties

Molecular mass: Data not available Physical status: Liquid Appearance: Clear Odor: None Threshold odor: Data not available Density at 25°C (g/mL): 1.02 ± 0.01 Freezing point: Data not available Boiling point: Data not available Vapor tension: Data not available Density of vapor: Data not available Coefficient of division (water/oil): Data not available Water solubility (Air=1): Miscible in water Rate of evaporation: Data not available Volatility: Data not available pH: 11.0 to 11.2

# Section 10. Stability and reactivity

Stability and reactivity: Stable
Incompatibility: Oxidizing agents.
Hazardous decomposition products: Thermal decomposition products such as carbon dioxide (CO<sub>2</sub>).
Conditions to avoid: High temperatures, heat, open flames and contact with incompatible materials.
Hazardous polymerization: Will not occur

## Section 11. Toxicological information

#### Information on ingredients:

| Name                           | <u>CAS</u> | <u>LD<sub>50</sub></u>  |
|--------------------------------|------------|---|
| Diethylene glycol methyl ether | 111-77-3   | Rat (oral) 7,000 mg/kg<br>Rabbit (dermal) 20,400 mg/kg<br>Rabbit (dermal) 9,404 mg/kg |

Routes of entry: Eyes, skin, inhalation, ingestion.

#### Potential acute effects

- Eyes: The product can cause eye irritation.
- Skin: The product may cause irritation.
- Inhalation: The product can cause irritation to the respiratory tract.
- Ingestion: If ingested, product may cause irritation to the gastrointestinal tract. Harmful if swallowed in large quantities.

<u>LC<sub>50</sub></u> N/A

## Potential chronic effects:

**Ecological data:** 

Carcinogenicity: No components have been confirmed as carcinogenic. Reproductive toxicity: Test on laboratory animals show that overexposure may cause reproductive disorders. Teratogenicity: Suspected human reproductive toxicant. Possible risk of congenital malformation in the foetus.

# Section 12. Ecological information

| <u>Name</u>                    | Results                       | <u>Species</u>            | Period |
|--------------------------------|-------------------------------|---------------------------|--------|
| Diethylene glycol methyl ether | LC <sub>50</sub> - 7,500 mg/L | Lepomis Macrochirus       | 96 h   |
|                                | LC <sub>50</sub> - 5,741 mg/L | Pimephales promelas       | 96 h   |
|                                | EC <sub>50</sub> - 1,192 mg/L | Daphnia Manga             | 48 h   |
|                                | EC <sub>50</sub> - 1,000 mg/L | Selenastrum capricornutum | 96 h   |

Effects on environment: No data available Environmental precautions: No data available Breakdown products: No data available Toxicity of the biological breakdown products: No data available

# Section 13. Disposal considerations

Waste disposal: Dispose of this product in accordance with federal, provincial and local laws.

# Section 14. Transportation information

Classification DOT/ IMDG/IATA label: Not regulated as dangerous good

# Section 15. Regulatory information

GHS (Globally Harmonized System of Classification and Labelling of Chemicals):

Reproductive toxicity (Category 2)

## Hazard statements:

H315: Causes skin irritation. H320: Causes eye irritation H335: May cause respiratory irritation.

## **Precautionary statements**

P102: Keep out of reach of children.P264: Wash hands and skin thoroughly after handling.P270: Do not eat, drink or smoke when using this product.P273: Avoid release to the environment

## **UNITED STATES:**

**NFPA** rating

Health: 0 Flammable: 0 Reactivity: 0 Special conditions: 0

#### Legend: 4: Severe, 3: High, 2: Moderate, 1: Slightly, 0: Not hazardous
