Abranet® Ace HD – the Ace of heavy duty

When the going gets tough, Abranet Ace HD is even tougher. Remarkable durability and outstanding performance have been designed into the very fabric of this advanced abrasive range. It starts with the unique symmetrical diamond net pattern construction which provides remarkable strength, enabling the toughest sanding applications to be tackled with excellent resistance to edge wear and a long lifespan.

At the same time, the innovative woven net structure allows for dust extraction across the entire disc surface to provide true dust-free sanding. When there is a need-for-speed, Abranet Ace HD delivers. The special abrasive coating features sharp ceramic grains which work to ensure superior stock removal and exceptionally fast cutting performance. It is even non-corrosive classified so it is ideal for sanding corrosion sensitive surfaces. Thanks to clever design solutions, Abranet Ace HD is the easy choice for tough applications.

Abranet® Ace HD – the right choice for demanding applications

Durable net construction provides long disc lifetime on sharp edges.

Clean and efficient sanding for paint removal in automotive repair process.

Technical specifications

Bonding	Resin over resin
Grain	Ceramic
Coating	Closed
Colour	Brownish
Grit range	P40–P80
Backing	PA-net

Available as
discs, strips, rolls

Applications

- paint stripping
- various wood types
- composites
- metal
- soft and resinous materials

Key features

- Unique ceramic net abrasive for dust-free heavy-duty sanding.
- Ceramic grains give great cutting ability, recommended for hard surfaces.
- Strong net structure resists high wear and tear.
- Ideal for heavy-duty applications.
- Suitable for all sanders, regardless of hole configurations.
